

Beyond the Soft Market: Growth Strategies for Modern Insurance Businesses

The insurance market is shifting. Consolidation, Consumer Duty and the soft market are raising the bar for brokers at every level and the right technology can be the difference between thriving and standing still. Join nCino, BIBA and Pelican Insured for an exclusive lunch and learn.

nCino, Nicola Maguire, Head of Commercial at BIBA and Chris Braniff, Managing Director at Pelican Insured will showcase how independent brokers can drive:

- Growth via structured, data-driven sector pipelines targeting the right clients at the right time.
- Efficiency through Acturis integration, enabling faster KYC validation, so your brokers can spend time on relationships, not admin.
- Compliance through continuous sanctions screening and corporate change monitoring, removing manual risk.

If you want to join some of the most prominent commercial minds within our Insurance network and help define your own client lifecycle strategy, this is for you.
